

"We are not creative enough!"
"The furniture in my office and home are BORING!"
" The office should try and recycle more!"

Ever had these thoughts in your mind? Then **aAdvantage Team-Builder Series** is just for you. Witness your colleagues **unleash their creativity** in designing and building a **functional** piece of furniture from recyclable cardboards!

Let the imagination run wild. Be amazed with what your colleagues can actually come out with. Exercise team creativity in the build-up of furniture pieces, **"Imperial Cuisine Sets"** or the Ultimate **"Bridging U, Bridging Me"** (non-exhaustive).

This series is intended to ignite the team's creative energy and dynamics as they move through the stages of **planning, designing, building, troubleshooting and presenting their prototypes.**

Learn about the useful properties of the cardboard and ways in which you can do your part for the environment by recycling them.

Bring forth the tools!
